

CLEAR-Pb® Shatter-Resistant Lead-Plastic X-Ray Shielding

- * Modular X-Ray Control Booths
- * Mobile barriers
- * Panoramic windows and frames

Long term reputation in the medical industry.

Assurance we will offer competitive pricing.

Customer service #1 priority.

One Stop.

LACO Inc.

can do it all!

Anesthesia healthcare providers generally remain in close proximity to the patient for easy monitoring and administration of anesthesia. With limited space to work in, a special barrier is needed to easily maneuver in and out of tight spots. In fact, innovative designed barriers provide ideal radiation protection in virtually every type of setting.

Clear-PB x-ray shielding is a lead-impregnated, transparent, plastic sheet that contains 30% lead by weight.

Customize your radiation protection with a wide array of CLEAR-Pb Mobile Barriers. The mobile barriers are available in a variety of lead equivalents, sizes and frame material.

Optional soft amber tint provides low refractive and reflective indices.

Optional stainless steel stand with sturdy 5 smooth-rolling casters for easy navigation.
