can do it all!

## Iso-align™

Iso-align™ from MED-TEC is a multi-purpose, precision alignment device for routine quality control of lasers, linear accelerators, and simulators. It accurately and easily performs a multitude of precision alignment procedures without repositioning the device, including:

- Alignment of all lasers.
- Collimator and table/couch rotational angle readout accuracy.
- Light field alignment and jaw readout accuracy.
- Mechanical isocenter of collimators and treatment tables/couches.
- Optical distance indicator (ODI) accuracy at various distances.
- Port film grid alignment.
- Radiation and light field coincidence at various gantry angles.
- Radiation iso- center of collimators, gantrys, and treatment tables/couches.
- Crafted of non-metallic components to ensure that it is CT friendly.
